

Architect (Designer/Project Manager)

Description

Safdie Rabines Architects, a mid-sized multi-disciplined firm in San Diego, CA is seeking qualified candidates for a number of Architect positions with a minimum of four years experience. Comprehensive construction documentation and strong project management skills are essential. Applicant must have demonstrated experience using Revit on projects.

We offer competitive salary and benefits in a collaborative work environment.

Qualifications:

- Professional Degree in Architecture from an accredited university architecture program. Licensure or anticipated licensure and LEED accreditation is preferred but not required.
- Excellent written and verbal communication skills.
- Ability to multi-task, meet deadlines, mentor others and be a team leader.
- Proficiency in Microsoft Office Suite (Word, MS Project, Excel, Outlook, PowerPoint)

Please send resume, cover letter and work samples for consideration.
